

## Starshanes

- Take pictures of stars, then connect them for drawings
- upload the drawings back up, where other players can see them
- Drawings follow the movements of the sky

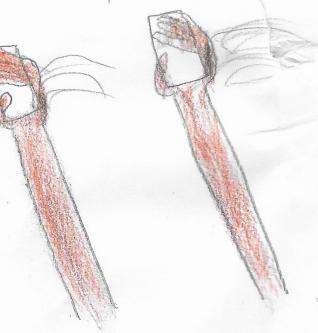

## Blockbuilding

- Tetris-like AR game
- 2 Players, alternating Turns
- Physics based
- Blocks don't disappear, instead player loses when the Tower falls over

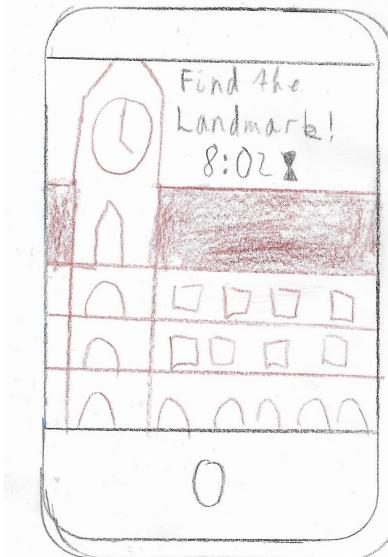

## Bopit-Duel

Wave your Phone above  
"Your Hand!"

- Duel with a friend, next to each other
- Different movement command
- Whoever does the command first wins the round

## Landmark hunting

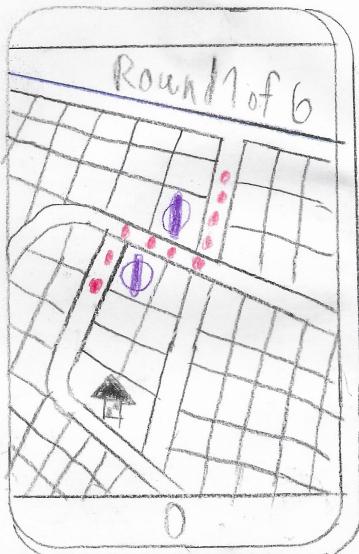

- Recognize landmarks and walk to them
- Timer stops once close enough
- Set challenge runs with headboards
- Compete with your friends

## Virtualdog

- Virtual pet
- Feeding, playing with them, petting them
- Take them on Walks with AR

## Streetdefense

- Uses GPS-Streetmap
- Enemies coming towards current location
- Build Turrets to defend yourself
- Nearby Players can join together to defeat bigger Waves

## City Conqueror

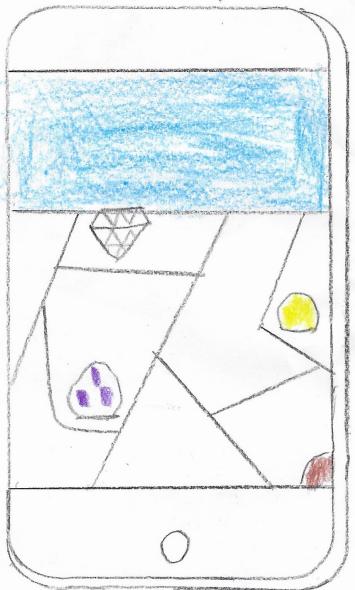

- Occupy Territories, gain Soldiers from each
- Use your current locations as your Base
- Fight other players, Winner gets decided with minigame
- Ally with friends to combine your Forces

## Mobile Garden

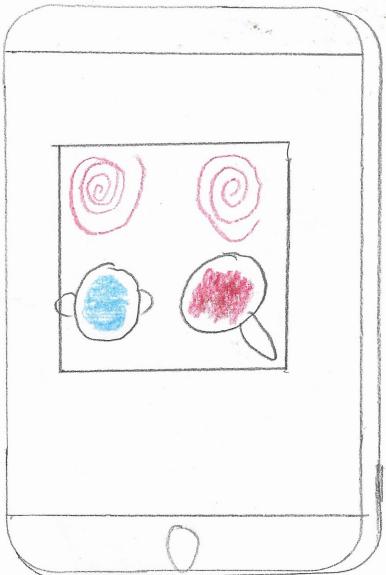

- Grow plants on your Phone
- The Weather affecting the Phoneplants is the same as the current location
- Gain Seeds randomly, able to exchange them with Friends

## Mining Mayhem

- Uses GPS Map of surroundings
- Different nodes spring up randomly.
- Use resources to upgrade equipment
- Create Ornaments
- Trade Ornaments/Equipment with Friends

## Cooking Madness

- Work together with a friend to complete dishes
- The phones have to be next to each other, for certain tasks, like a big cutting board

## Cosmetics

- Add small objects to personalize your garden
- Fairies, garden gnomes
- Some could even give buffs

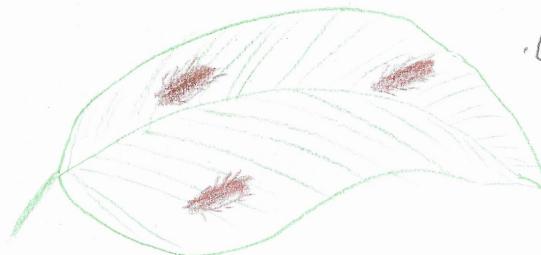

## Bees

- Add a beehive to the garden
- Helps with the flowers and other plants by pollinating

## Garden pests

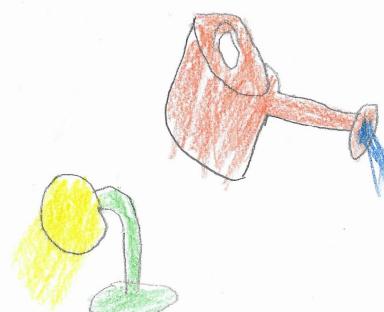

### Squash the pests

• Worms and Bug randomly show up

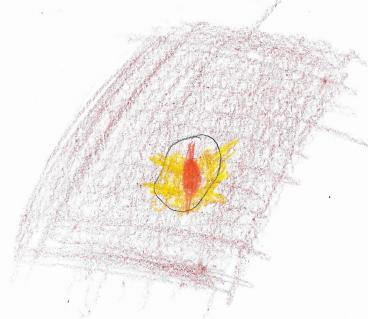

- If not dealt with, they can destroy plants
- Can use the chemicals, but will hurt the plants

## Deal with persistent Weather

- Since the weather can be unpredictable, there's ways to counteract
- Shield them from too much rain, and use a solar lamp
- Or water them in a drought

## Digging

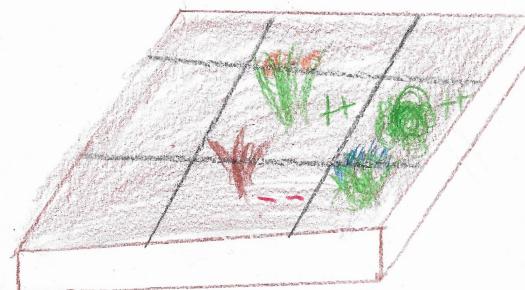

- Small markings in the Ground show where to dig
- One way to get new seeds, other than from Friends.
- Sometimes find other rare rewards like cosmetics.

## Requests/Orders

Carrots	100 g
Tomatoes	200 g
Oregano	50 g
Basil	75 g

- Request Like System
- Gain Orders from the Appiegel or from Friends
- Use the q to buy better Gardening equipments

## Adjacent Garden plots

- Have a set amount of plots
- Plants gain certain modifier depending on its neighbours.

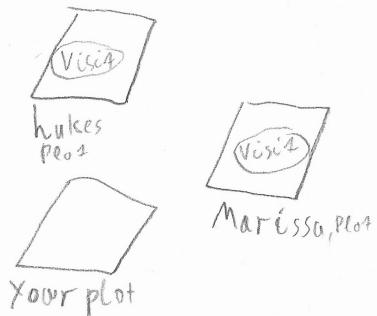

## Birds and Trees

- Large Trees, possibly with fruit
- If your Trees are advanced enough, Birds get attracted
- Birds can bring new Seeds

Visit Friends.

- Visit your Friend plots
- Able to harvest things for them

Bonsai

- One Singular Bonsai tree
- In addition to normal Plantcare, also have to deal with pruning branches, cut leaves
